				<u>14,818</u>

COMMENT: PSL0T2 contains caregiving hours provided for both children and adults. If childcare is provided, ONLY childcare hours are reported, regardless of the amount of time caring for others. If no childcare is provided or childcare hours are missing, hours providing care for others is given instead.

RECOMMENDATION: Use PCARE to determine which hours are linked to childcare (110-119) and which are linked to care for others (120-129).
