% employed = 55.6%
% unemployed = 5.8%
% ILO unemployed = 5.2%

WARNING/COMMENT: Individuals 70 and older who are not working are not asked questions about unemployment or other activities. They are assumed retired from paid employment if they ever worked and are otherwise classified as "70 or older, no previous paid employment".

WARNING/COMMENT: National insurance credits are added to an individual's contribution record in cases of unemployment or incapacity to work, and in some other situations where an individual does not work for particular reasons. Credits can be received if the individual signs on with the jobcentre, or has a medical certificate. Those who 16 receive credits for the first three years of their contribution record if the record would otherwise be insufficient. Those in training or education may also be entitled to credits. Credits are also provided for weeks doing jury service, weeks receiving a carer's allowance, and for weeks receiving Statutory Maternity Pay or Statutory Adoption Pay.

NOTE: The distinction between self-employment and paid employee is made here because questions about work absence are only asked of paid employees.

WARNING/COMMENT: (1) PTENURE was calculated in months and converted to fractions of years. For those wishing to use monthly tenure, multiply PTENURE by 12. (2) Tenure for 9 individuals was calculated as a small negative number (>-.5). For these individuals, it was assumed that the current year was incorrectly reported as the start year and 1 year was added to tenure. (3) For those individuals who did not know the start month for the current job or were not asked (those who started in 1991/1992), tenure is

CONTENTS: Total usual hours includes weekly hours worked (including paid and unpaid overtime) in all current jobs. If the work pattern is not based on a week, an average over the last 4 weeks is used. If a person has started a new job in the reference week, the usual hours are taken as what the person expects them to be in the future. For apprentices, trainees and other people in vocational training, work hours exclude any time spent in school or other special training centres outside their workplace. Respondents working on-call and who, therefore, have no set hours at work, are asked the actual hours worked last week.

WARNING: Total usual hours is the sum over all jobs. Where an individual has more than one job, but those jobs are not all performed in any given week, total usual hours can be overstated. (For example, there are two individuals who each report three jobs, each with a "usual" 56 hours per week.)
