

For PC Users:

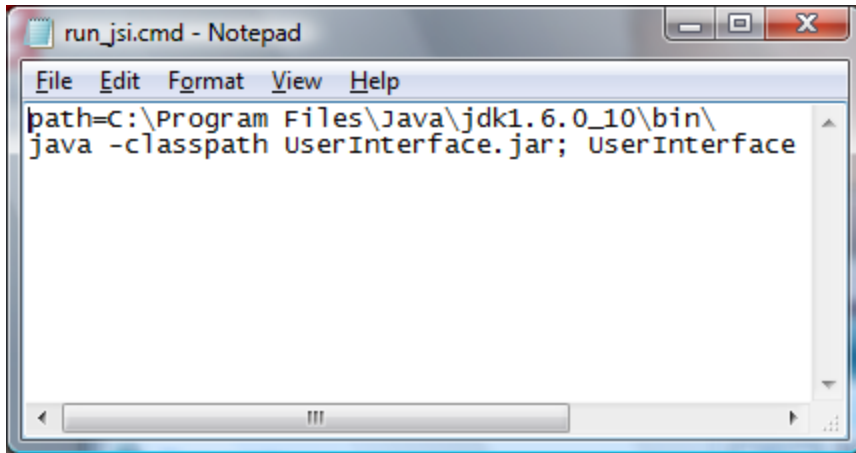

1. Login to LISSY to start the application
2. Open it using the option **Java(TM) Web Start Launcher (default)**
3. The following **LISSY User Interface certificate** dialog box will pop up:

4. Click on Run to accept the certificate and to download the JSI
5. Connect to *LISSY* using the user ID and password received during the Registration. (Note that the password is case-sensitive)

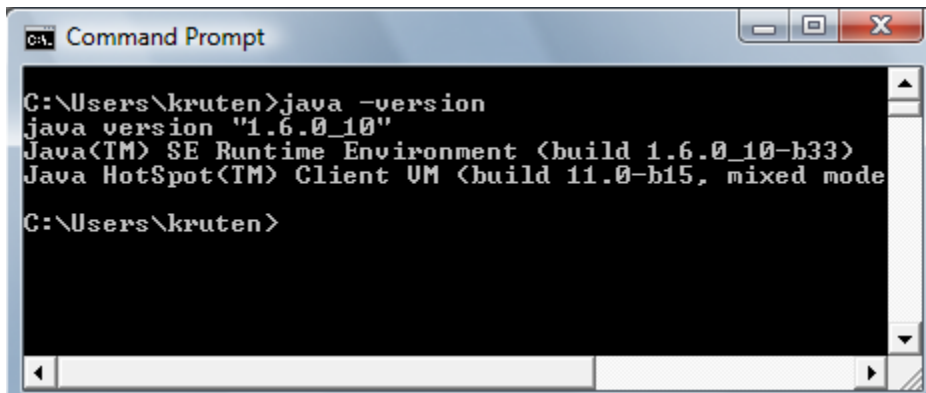

To Install the Job Submission Interface

1. Download both the **(JSI)** and **(cmd)** links
2. Save the two files within the same folder
WARNING: your browser may attempt to save the JSI file as a **zip** file. It is essential to save it as a **jar** file
3. Rename the file **run_jsi.txt** to **run_jsi.cmd**
4. Edit the run_jsi.cmd file (using Notepad) and apply the Java runtime path that matches your configuration

```
run_jsi.cmd - Notepad
File Edit Format View Help
path=C:\Program Files\Java\jdk1.6.0_10\bin\
java -classpath UserInterface.jar; UserInterface
```

5. To determine the Java version, open a CMD window and type **java -version** at the prompt

```
Command Prompt
C:\Users\kruten>java -version
java version "1.6.0_10"
Java(TM) SE Runtime Environment (build 1.6.0_10-b33)
Java HotSpot(TM) Client VM (build 11.0-b15, mixed mode)
C:\Users\kruten>
```

6. Return to the folder where the files are saved and double click on the run_jsi.cmd file
7. Connect to *LISSY* using the userid and password given to you at registration. Note that the password is case-sensitive
