Recoding was not carried out.
There is a mix of levels in certificate/diploma (code 3).
According to the country contact person, it would be more likely to code as medium.
In addition, it is unclear if persons who left school at age "X" do have a diploma or not.

If LIS users want to pursue a recode they may do so on their own responsibility.
The mapping below may serve as suggestion.

```
PEDUC                                          ISCED97      LIS recode
  1  student                                                   9
  2  bachelor/degree or similar                 5/6            3
  3  certificate/diploma                        3/4/5          2 or 3?
  4  trade qualification                        3B/4B          2
  5  secondary school course                                   2?
  6  left school age 18+                                       2?
  7  left school age 17                                        2?
  8  left school age 16                                        1?
