

Recoding was not carried out.

There is a mix of levels in technical education (code 3), as it could be both low, medium or high.

Also code 7 might be mixed between medium or high (more likely to be high though).

Since 12 percent of the population is concerned, LIS decided not to recode.

If LIS users want to pursue a recode they may do so on their own responsibility.

The mapping below may serve as suggestion.

The problematic categories are pointed out.

PEDUC	ISCED97	LIS recode
0 no education		1
1 primary education	1	1
2 complementary education		1
3 technical education	2A/3C/5B	1 or 2 or 3?
4 professional education	3C	2
5 lower secondary education	2A	1
6 higher secondary education	3A	2
7 higher non-university education		2 or 3?
8 university	5/6	3
