Household Expenditure Survey (HES) and Survey of Income and Housing (SIH). The HES is integrated with the SIH.

The principal objective of the survey is to facilitate the analysis and monitoring of the social and economic welfare of Australian residents in private dwellings.

Cross-sectional household survey data.

2009-2010 survey.

Information was collected from usual residents of private dwellings in urban and rural areas of Australia (excluding very remote areas).

Additional remarks

Some variables have had values ranged, collapsed or topcoded.
